

MIRF

Mobile Intensive-care Rescue Facility

Introducing the Mobile Intensive-care Rescue Facility(MIRF) - a portable and self-contained Intensive-care unit. More than an ad-hoc stretcher system, the MIRF has been designed to incorporate capabilities and functions previously unseen without dedicated aircraft modification. Most importantly, the MIRF system stresses flexibility and rapid response allowing recoveries in remote locales where no capability has existed before.

Simplex systems are known for quality workmanship, reliability, durability and an uncompromising dedication to safety and dependability backed by 24-hour worldwide customer support.

MIRF FEATURES

- COMPACT, SELF-CONTAINED AND TRANSPORTABLE
- RAPIDLY FITTED INTO A LARGE ARRAY OF VEHICLES AND AIRCRAFT
- INTEGRATED OXYGEN AND POWER SUPPLY
- READY TO GO IN MINUTES, OPPOSED TO HOURS
